*****OPERATING INSTRUCTION*****

1. Approach the Automated Fueling Terminal. The display must read **"Welcome - Present Tag - Swipe Card"** to start a fueling transaction. If no message appears, and the system is not working between 7:00-4:00 please call 271-2057.
2. If the terminal appears to be operational place **"Vehicle Tag"** against the red circle on terminal. The display will respond with, **"Enter Pump Num"**, enter desired pump number and push
3. The display should respond with, **"Enter OdoMeter"**, now enter odometer reading and push **"Ok"**.
4. The display should respond with, **"Vehicle Excepted Please Present Driver ID"**, now slide your **"Driver Card"** or select the **"F3"** button and enter the six digit number printed on the bottom of your driver card. (A **"6"** should precede a five-digit card number or a **"60"** should precede a four-digit card number.)
5. Go to the pump you have selected, remove the hose nozzle, turn the reset handle counter clockwise to the **"ON"** position. Pump the required fuel, turn the reset handle clockwise to the **"OFF"** position and place the hose nozzle back in it's resting place. You should have had a successful fueling of your vehicle.

If you have problems, repeat steps 1 thru 5,
or contact the Site Manager at your location.
